TrendKart E-Commerce Sales Analysis Report

1. Business Problem

TrendKart E-Commerce Store wants to analyze its 2022 sales performance to:

- Understand customer behavior
- Identify key sales drivers
- Improve overall business growth in 2023

2. Objective

The objective of this project is to:

- Create an annual sales report for 2022
- Analyze sales trends and customer patterns
- Identify top-performing states, channels, and categories
- Provide data-driven insights for decision-making

3. Key Business Questions

1. Which month has the highest sales and orders?
2. Who purchases more: men or women?
3. What is the distribution of order status?
4. Which states contribute the most to sales?
5. How do age and gender affect purchasing behavior?
6. Which sales channel contributes the most?

4. Dataset Description

The dataset contains transactional-level data with the following key fields:

- Order ID – Unique identifier for each order
- Cust ID – Unique customer identifier
- Gender – Customer gender (Male/Female)
- Age – Customer age
- Age Group – Categorized age (Teenager, Adult, Senior)
- Date / Month – Order date and monthly breakdown
- Status – Order status (Delivered, Cancelled, Returned, Refunded)
- Channel – Sales platform (Amazon, Flipkart, Myntra, etc.)
- SKU – Product identifier
- Category – Product category
- Size – Product size
- Qty – Quantity ordered
- Currency – Transaction currency
- Amount – Total order value
- Ship-City / Ship-State / Postal Code / Country – Delivery location
- B2B – Indicates if the order is Business-to-Business

5. Tools & Techniques Used

- Microsoft Excel
- Pivot Tables
- Data Cleaning
- Data Visualization (Bar Chart, Line Chart, Pie Chart, Donut Chart)
- Slicers for interactive filtering

6. Key Insights

- **Sales Trend:** Sales peak during March–April and gradually decline towards the end of the year.
- **Gender Analysis:** Women contribute approximately 64% of total purchases, making them the primary customer segment.
- **Top States:** Maharashtra, Karnataka, and Uttar Pradesh are the highest contributing states in terms of sales.
- **Sales Channels:** Amazon generates the highest sales, followed by Myntra and Flipkart.
- **Order Status:** Over 92% of orders are successfully delivered, indicating strong operational performance.
- **Age Group:** Adults are the most active buyers, contributing the majority of purchases.

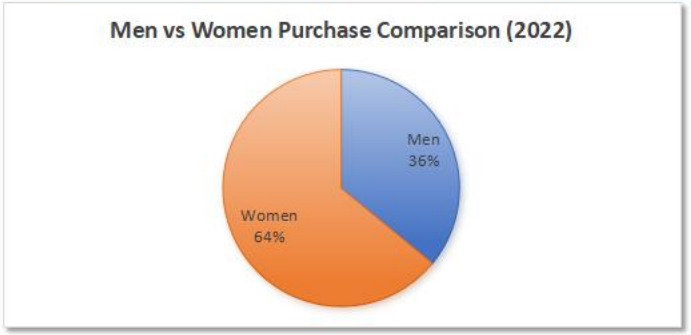
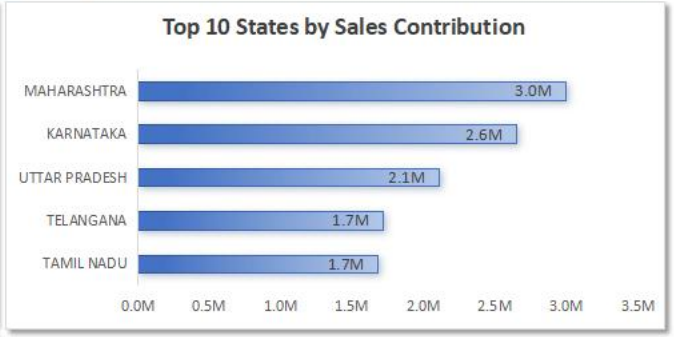
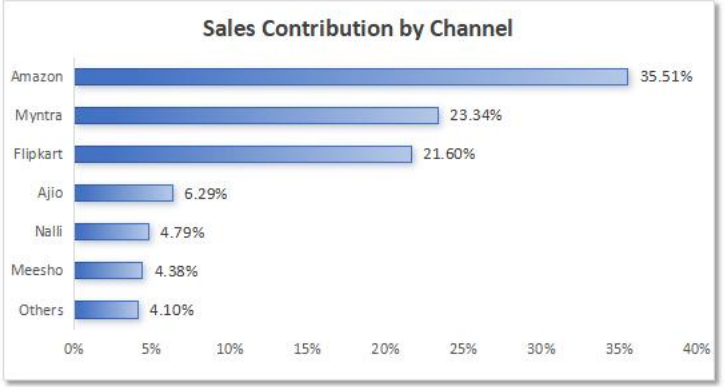
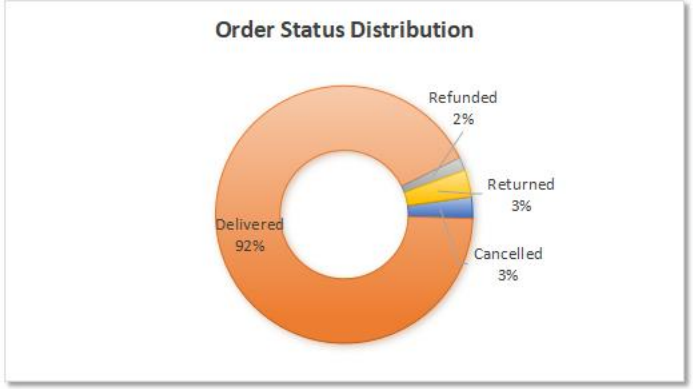
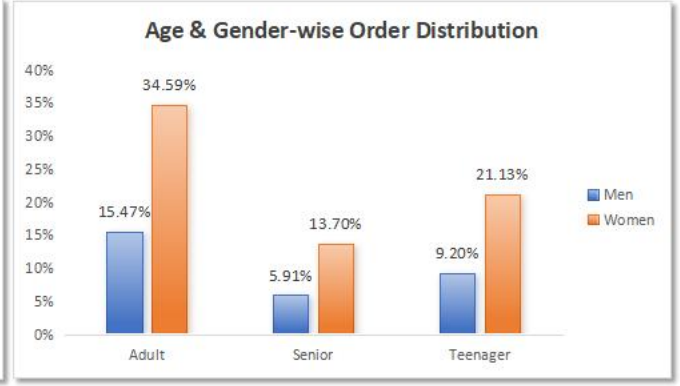
31047











7. Business Recommendations

- Focus marketing campaigns on female customers
- Increase inventory and promotions in top-performing states
- Strengthen presence on high-performing channels like Amazon
- Introduce offers during low-sales months
- Focus on high-performing product categories

8. Conclusion

- The analysis shows that TrendKart performed well in 2022 with strong delivery rates and clear customer trends. By leveraging these insights, the company can optimize its strategy and achieve better growth in 2023.
